Technical specifications

- Mechanical dynamometer with forged steel elastic cell
- For external use
- Operating temperature: $-30 \div +60^{\circ}\text{C}$
- Painted aluminium case
- DN 300 mm analogue dial
- Lower swinging hook
- Collar upper connection
- Zero manual adjustment
- Admitted overload: up to 180% of full scale value
- Linearity and repeatability accuracy: $\pm 1\%$ (o.f.s.v.)
- Safety degree: 5
- No metrical check required

Standard fittings

- SIT Reference calibration report
- EC conformity declaration

Accessories on request

- Thermal shield
- Maximum index
